

Sherda gave an update on the speakers. Some have confirmed and some have not. She also mentioned trying to secure President Clinton since he was in office and signed the order when Nicodemus became part of the national park system. His attendance would require a more formal setup for the audience. If we are going to need to rent any tents, etc. we need to reserve NOW. Also someone will check with Veryl about grants he found when he was working with homecoming.

Gary gave update on pricing of a stage. Decided to rent stage and sound equipment this year and work on building our own at a later date. The guy Angie rents from has charged \$700 per day for the stage and sound equipment. She will check with him on a two-day price.

Discussed sharing the beer license with Angie since the license covers a year and she only needs it for the jazz in June and we only need it for homecoming. Motion Gil, motion carried.

Still have not heard anything from Sheryl about the logo. Need to get in touch with her ASAP. Also will contact Carol about doing the t-shirts – hopefully with the new logo.

Sherda talked with the post office about getting either a cancellation stamp or designing a stamp. Decided to have the cancellation stamp done probably both this year for the 10th anniversary and next year for the 130rd anniversary of Nicodemus. Will need to discuss price of articles with this cancellation stamp.

Mentioned miniature horses and petting zoo. Nothing firm on either.

Next meeting will be 2nd Saturday in May – 5/13/06.
