We would like to also establish a Women's Society within the overall structure of the Historical Society, and are asking that Charlesetta Bates, Yvonne Sayers, Pearlina Moore, Ivalee Switzer, and Alvina Alexander to head this effort. These five women represent the five major families in Nicodemus.

We will be sending you information and the overall objectives of this group, and hope that you will lend us your time and effort to make it a success. Thank you.

There are many other efforts that we have planned for the Society and will try to keep you informed as to what they are and hope to see you participate. Please be willing. This is a joint effort by all who have roots in Nicodemus as well as those who have a genuine interest. Thank you.
