RE: Membership & Annual Dues

Dear Past & Present Members:

After a recent visit with Angela, she shared a great deal of optimistic hope for the future of Nicodemus. Even though the majority of us have gone our ways, the wheels to keep Nicodemus alive are still rolling. I was surprised and pleased with the results of her trip to Washington D.C. It is hopeful that in the near future funding and support for our Historical Sight is just a matter of time.

However, on the other hand It was surprising and disappointing to learn that the Historical Society's dues were being over looked. For the sake of our heritage and home we ask for your help and encourage you to continue making your TAX deductible contribution, by renewing dues or establishing a new membership with the Nicodemus Historical Society.

In preparing a brief annual financial report we found the need to express the importance of your yearly dues. These dues and the monthly cost of the News Review (newsletter) are applied to the expenditures of printing and mailing out the newsletters and minimal purchase of office supply, virtually nothing more.

All of us understands we're living within a higher economic situation. Because of this we anticipate your understanding why a few minor adjustments are necessary in order for us to keep focused on our goals. One such adjustment involves the Newsletter. May 1991, marked the third year for the Society's newsletter, unfortunately, December of this year will bring the monthly issues to an end.

Therefore, we would like to ask for your HELP and SUPPORT and SMALL and I repeat, TAX deductible fee of just \$15.00 which covers your annual dues as a N.H.S. Member. This annual fee breaks down to only \$1.25 per month and will entitle many advantages to receiving the New Quarterly issues of the N.H.S. News Review, starting January--March 1992.

In hopes of having our request acknowledged by those who have an interest as we do in Nicodemus's future, we have enclosed an application for membership to the N.H.S. If there are any further questions are request or suggestions please know that they are welcomed.

In closing, I would like to thank all interested parties in advance for their continued loyalty, corporation and support.

With Best Regards,

Earlice Switzer Rupp, (Acting, V-P)  
Nicodemus Historical Society
