

PROPERTY

Direct involvement with or influence on property-related issues can be achieved in a variety of ways, including ownership, control, incentives and planning for the preservation of historic resources. Property related activities could include house museum stewardship, easement programs, revolving funds, technical assistance, advocacy regarding state legislative and agency decisions, and other activities.

COMMUNICATION

Communication channels should exist to provide information on preservation issues and opportunities to constituents in a regular and timely manner through conferences, meetings, newsletters or other appropriate vehicles.
