

Then we plan for about 3 o'clock in the afternoon at Lawrence to use the Warrensburg team and the Kansas team in demonstrating fundamentals in different basketball technique. We will run from about 3 to 5 o'clock with our clinic, and we would like to have you discuss basketball officiating and officiating administration.

Regarding Warrensburg, I prefer to write to Coach Scott and ask him to accept you rather than to tell him that you have been engaged. I trust this will be satisfactory with you.

I extended my commiserations to you and Mrs. Quigley and Heinie when you were in the automobile, but I want you to know that I am sorry for the darn tough break that you got. However, when I read of the tragic happenings such as that which occurred to Pat Mason, and some of the other boys who have gone West, then we think we are mighty lucky to be the type like you and me. Not that we have so much health and so much wealth, but we do have a little of each. And the durable satisfactions, after all, are what accrues to the middle man, and we are that type. When we think of Hitler and Mussolini and that gang, and then when we think that we are living in God's country with almost every blessing -- well, then, Quig, I just can't feel too sorry for you.

Good luck to you, old fellow, and kindest regards to your lovely wife.

Sincerely yours,

FGA:AH

Director of Physical Education,  
Varsity Basketball Coach.
