Dear Doctor;

I was very glad to receive your letter about the games Dec. 14 and 23rd.

I would appreciate your sending me a list of officials that would be O.K. with you.

I had a letter from Mr. Quigley asking about games and I would like to use him on our game down here if it is alright with you. Will you suggest some one for the second man.

I don't want to hurry you in any way but I am worried a little about the scarcity of officials this year and I want to get the best for that game.

Thanking you for your kind letter,  
I am very truly
