

November 11, 1937.

Mr. John F. Carnody,  
Athletic Director,  
Haskell Institute,  
Lawrence, Kansas.

Dear Coach Carnody:

I have just talked with Coach Richard Godlove and he is agreeable to having both you and Coach Edd Wood as officials for our Ottawa games, at Lawrence on December 7th and at Ottawa on December 10th.

We were planning only to use one official in our games, and we thought that if both of you would work for \$10.00 a piece it would cost us the same amount as if we engaged one regular Big Six official. Please do not think we are trying to "Jew you down", but we want you to work, yet we are forced to keep our expenditures within regular bounds as if we used but one Big Six official.

Please do not think we value any the less your competency and ability. By using you both we can arrive at the same financial termination and have two good officials instead of one good one.

In our game here with Ottawa at Lawrence we are playing both our A and B teams. I imagine you will have no objections to projecting your amiable personality into these hotly contested frays for a longer duration of time than the one game would consume.

Very sincerely yours,

FCA:AH

Director of Physical Education.
