

October 22, 1937.

Mr. E. C. Quigley,  
St. Marys, Kansas.

Dear Ernie:

I am sending you a list of our non-conference games, and so far as I am concerned I would be happy to have you work all of them.

Dee Errickson and Don Cooper and I have agreed on you to work our games. For the game with Drake, Sec Taylor is putting on that game just like the Chicago Tribune puts on the all-star game. Sec is agranging to have all the high school coaches and players in that area not only at the game but at a coaching school the Register fosters a couple of days.

Sec wrote me saying that he wanted Bill Williams and me to get together regarding officials, but he did not want to spend too much money as the Register cannot afford much. Sec especially stressed expenses, but I am hoping that we can have you up there. Of course, the nominations will first come from Bill Williams.

When I wrote you the other day saying that I wanted to see you it was for the purpose of explaining these double game situations to you. I have not communicated with Dick Godlove, but I am sure that Dick would be glad to have you. First, I would be happy to hear from you regarding games that you have already accepted that will conflict with this schedule, so that if you cannot accept these I would like to go about making arrangements for other officials.

We have a swell frosh team coming up and we are going to play them on December 1, but there will be no income from that game, and I imagine we will use some local talent.

We are using the Bask-O-Lite goals in all of our non-conference games, and Missouri has already agreed to their use here for their game in Lawrence. The other coaches will perhaps decide definitely on the matter when we meet in Kansas City on December 4th. By the way,
