

November 16, 1937.

Coach Richard Godlove,
Ottawa University,
Ottawa, Kansas.

Dear Dick:

This morning Edd Wood notified us that he will be unable to work our game at Ottawa on December 10. He and Carmody will, of course, work the game here on the 7th.

I have never seen Carmody work a game, but I think we ought to get some experienced fellow. I thought Wood and Carmody together might be all right. What would you advise in regard to another official at Ottawa?

I don't know what the Kansas Conference fee is, but Carmody has agreed to work for \$10.00, and we might get another fellow that would work for the same price. If we get a high school official I think he should be a pretty good official. I don't expect a big shot, but we should have a highly efficient young man because in games like that if the officials are not good the ball games get away from the people.

This is just another story of young coaches desiring to work, then after you agree upon them they find that their own games interfere.

Will you please let me know your suggestions?

Sincerely yours,

Director of Physical Education.
