Ottawa, Kansas.

Dear Dick:

I have your letter of the 21st instant, and note what you say about Floyd Smith, of Iola. I do not know him, and of course am not familiar with his officiating. I do not feel, however, that we should have two high school officials for our game as there is a great difference between a high school game and a college game.

How about Ted O'Sullivan, or some of the other boys out of Kansas City? I shall be glad to hear from you again regarding an official to work with Carnady at our game on December 10 at Ottawa.

We shall be very glad to bring along our "B" team to play with your "B" team after the main game. As our schedule now stands, we play a "B" game here at Lawrence on December 7 and also at Ottawa on December 10, following the main game at each place.

Sincerely yours,

Director of Physical Education.
