

THE UNIVERSITY OF OKLAHOMA

NORMAN • OKLAHOMA

Kansas City plus the fourteen watches they gave us.) Looks like the squak you gave out made the boys spuirn a little in their swivel chairs. Now if the rest of the boys want this double business I think it O. K. We still might be able to play you a couple of games on the outside. Whatever the rest of the men want I'm willing to cast my lot for I think we must be solid now as never before with one school already dropping out. I do think however that we should be able to play these games at a location where we want them played so long as it's satisfactory to both concerned. Why wouldn't it be possible to just swap games? That would be the simple way out and with K. S. out, there is just one school that would be affected. What do you think about it?

Yes I remember when you were denied the right to play in Madison Square Garden. I remember about the 12 foot baskets and anything that you would bring up. After this sell me on the idea and I'll do the pushing for you. There's more than one way to skin a snake.

I sure hope that we meet not later than Sept. 18 so that we might start working on our schedules. Let me know when and in the meantime give the Denver game a thought or Kansas City. Might be able to play two games involving four Big Six schools and shift partners the following nite.

Sincerely,

Bruce Drake
Coach of Basketball
