

April 20, 1942.

Mr. C. G. Bayles,
Superintendent,
Buildings and Grounds.

Dear Mr. Bayles:

The grass is very luxuriant on the University golf course, and I trust that it will be mowed at a very early date. With the restriction on golf balls, our players are even more anxious to have the grass cut so they can find them.

My assistant on the course has also reports that there have been additional trees planted in the fairways. This is certainly a mental hazard, and we hoped the planting might have been forgotten in these fairways directly in the flight of the ball. I appreciate the necessity of landscaping this beautiful Mount Oread, but there are so few areas of play space and recreation on Mount Oread that a little cooperation would be greatly appreciated.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
