

February 20, 1942.

Mr. Karl Klooz,
Business Office,
University of Kansas.

Dear Mr. Klooz:

I trust that it will be possible for the attached order for Chlorine tubing to be sent through as an "emergency" order. At the present, a piece of garden hose which was attached to the chlorinator, is proving very unsatisfactory.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball and Baseball Coach.
