Gentlemen:

Your above order covering Gymnasium equipment received, however, we regret to advise due to shortage of steel and drastic increases in cost prices have advance since making this quotation and it is simply impossible to protect outstanding quotations all of which are subject to change without notice.

Will you permit us to enter this order at the present correct prices which are as follows:

1 #147-B Suspended Lunge-----\$14.50

1 # 74 Parallel Bar-----\$229.00

At the present time prompt shipment can be made, however, we do not know how long this will be a possibility.

Yours very truly,

Dear Mr. Lisle:

This is to acknowledge receipt of your letter of July 5th concerning our order to the J. E. Porter Corporation for one #147-B Suspended Lunger and one #74 Parallel Bar.

Inasmuch as there is some doubt as to when shipment could be made, and since the price of steel has rocketed, we desire to cancel our order for the Parallel Bar. The increase on this item is too much for our departmental budget this year.

We desire, however, to have you enter our order for the Suspended Lunger at \$14.50, as quoted in your letter.

We are sending a copy of this letter to our Business Office so that their records will be in accord with our desire.

Sincerely yours,

My dear Dr. Allen:

This will acknowledge receipt of your letter of the 1st concerning the suggestion of Professor Bert Nash as Tennis Coach.

In reply I wish to say that the Board had already mentioned this possibility to Professor Nash but at that time he declined on the theory he would not have time since he had these Childrens' Clinics. I again called him in yesterday after the receipt of your letter and again he declined for the same reason. I ~~now~~ think that we have another lead which may work out to the satisfaction of all.

Dear Mr. Klooz:

Enclosed is a bid sheet and purchase request
for a second-hand public address system, 14-watt, in the
amount of \$50.00.

This system will be used for our work in teaching
dances to large groups. We have tried it out and find
that it fits our needs very nicely and it will save us a
lot of money. Mr. Crow, the electrician here at the University,
has seen this set and he pronounces it very good for the
price.

The enclosed bid is non-competitive due to the
fact that this is a second-hand public address system.

We are requesting an order for this public address
system.

Sincerely yours,

Director of Physical Education and Recreation

Dear Karl:

I am acknowledging receipt of your note dated December 31, 1940, asking if there was not some way we could get "Pete" Bausch to pay some on his note as of October 15, 1932.

I am enclosing a letter I have written to "Pete" Bausch which I trust will enable me to gain contact with "Pete" and I will make a very definite and strenuous effort to collect a part of this bill. I believe I can do it.

I will let you know what progress I make when I return from Wichita.

Dear Karl:

When I was at the University of *Michigan*
I visited their indoor golf driving range and
found the grass mats which they used (the same
as those used for door mats) were not very satisfactory
because the clubs would tear large holes in them
and consequently cluttered up the surroundings.

They recommend the type of rubber mat
we are requesting on the enclosed purchase request.
We request an order for this mat from the Miller
Furniture Store here in Lawrence.

Dear Mr. Klooz:

We are in need of a 40' x 14' net mesh for our gymnasium. Since none of the sporting goods houses carry this material I wrote Lowe & Campbell for a bid. I am sending a sample along.

If you feel it is necessary to get other bids, we would be glad to comply with the request; however, we believe that for a special order of this kind, this is a very good bid.

We would appreciate your usual prompt attention.

Dear Paul:

We are sending through our requisition from the Physical Education Department for the 40 x 14 net in the $\frac{3}{4}$ " mesh, hung all around on a $\frac{3}{16}$ " Manila rope. We are filling out the requisition in the amount of \$22.25, the cost of the net to us being \$22.25 f.o.b. Kansas City. We are also ordering one-half dozen only of the Ever-up rubber tees.

In addition to this, we are taking up with the Athletic Department the matter regarding the double-faced score board. We will inform you as soon as we can get a definite statement from the Athletic Department.

Dear Dr. Allen:

The 40' x 14' net in the 3/4-inch mesh, hung all around on a 3/16" Manila Rope, will cost you \$22.25 f.o.b. Kansas City.

We are attaching a small sample of the weight netting on which we are bidding.

Attached is a golf practice net price list as furnished us and if you find anything on this list that might serve your purpose, the prices quoted are subject to a discount of 33-1/3%. This discount applies on the ones on this sheet -- the price that we quoted on the special 40' net is a net price.

You will notice that targets for these golf nets list at \$24.80 on the sheet attached; however, it is our suggestion that you purchase an archery target face in the large size, as described on Page 107 of the Lowe & Campbell catalog. The #R187 Extra Face in the 48" size will cost only \$1.05. A target face of this kind is made in such a way that it fits around the straw target, but the edge which has a cord thru it can be cut off very easily; then you can sew it to the net backing. This target face is just an idea and if such a face would serve the purpose, one could be purchased at a very low price.

(The Ever-up rubber tees of the type mentioned to you on the phone are in our stock at 25¢ each.)

SQUARED MESH

LIKE IN TENNIS NETS

Some people prefer squared mesh in golf nets as it hangs a little straighter than diamond mesh and is in some cases neater in appearance. It is a little more expensive, however, and has the disadvantage that it may be more easily broken because it is more rigid and does not "give" as much as the diamond mesh when struck by a ball.

It can be supplied in all the regular sizes of mesh and twine.

To figure prices for nets of special dimensions in squared mesh add 10% to the prices for diamond mesh, on previous page.

CANVAS BACKS FOR GOLF NETS

For safety these backs should be made of very heavy duck and we wish to warn our customers against using some of the cheap canvases sold by some concerns. A ball driven through a canvas might cause serious damage. We recommend that the back be made of No. 6 duck and in the shape of a shallow box as shown in the illustration. We supply these box-like backs unless otherwise specified. Grommets are placed along the edges 3 in. apart to permit lacing the net to the canvas. The end of the net should set INSIDE the edge of the canvas.

GOLF NET FRAMES

We recommend frames of iron pipe securely screwed together as the most satisfactory. They should be a few inches larger each way than the nets themselves so the nets will stand away from the pipe. We will be glad to furnish a blue print so customers can build their own frames or can supply parts for single court frames.

Dear Mr. Klooz:

In explanation of the attached Purchase Request No. 19230 for various class supplies, may I state that we desire to place the order with Lowe and Campbell Athletic Goods Company because of the superior quality of these items. While the bid from the R. S. Elliott Company is slightly less than the one from Lowe and Campbell, we believe this expenditure is justified. I trust the order may be placed with the Lowe and Campbell firm.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.

Dr. Allen:

Please send along a letter with this Purchase Request explaining why you have not accepted the lowest bid. Otherwise the State Business Manager is apt to place this order with Elliott.

Order is added incorrectly. Total should be \$144.20.
