September 26, 1939.

Mr. Karl Klooz,
Bursar,
University of Kansas.

Dear Mr. Klooz:

I am enclosing an emergency order for one Replacement Compensator for our chlorinator. We now have a temporary arrangement by which the chlorine is distributed in the swimming pool, but it is dangerous to continue to depend on this.

I shall appreciate your approval of this order for the Compensator so that our chlorinator may operate under normal conditions in a very short time.

Sincerely yours,

Director of Physical Education and Recreation,
Varsity Basketball Coach.
