

Enclosed is the schedule of classes as worked out for the November term. This schedule is based on the assumption of about 430 Term I students, and 320 Term II students being enrolled in the November term. They must remain tentative until the Army determines the status of the boys to be sent here and until our list of failures in Term I is determined.

The room schedules for English and Mathematics can be worked out on the basis of these schedules upon determination of size of the classes. Dean Lawson and Mr. Nichols each have copies of these schedules.
