

and teeter-totters. This was a great service to the parents who came to enjoy the concerts and other entertainment on the hill-top.

3. Master fans for Union Building.....\$150.00  
Safety Grills for fans..... 72.80

Our request for this item last year was denied by the Budget Committee, but we are repeating it because until such a time when the Union Building can be air-conditioned this is so necessary to the comfort of the students during the summer. This past summer we were fortunate in being able to borrow from the Kansas Electric Power Company, four blower fans which they had in stock, but after these were sold we had to do without. These fans aided tremendously in the comfort of the persons attending functions in the building. It might not be possible for us to impose upon the company's kindness in this manner another summer.

4. For storage of Archery and Golf Equipment.....\$50.00

With the archery range located near the golf driving range it is necessary to have a place to store this cumbersome equipment (archery bows, arrows, targets, golf clubs and balls) near the ranges.

5. New Playground equipment.....\$200.00

Last year we were allowed approximately one-third of our request for this item. We were granted \$100 for playground equipment. Each summer it becomes necessary to replace softball equipment (balls, bats, masks), archery tackle, shuffleboard discs and cues, badminton nets and shuttlecocks, ping pong balls and paddles, basketballs, and to add new items to fill the demand for game equipment. A Goal-Hi standard, which sells for \$21.50, was given to me by the manufacturers, because I developed the game. We now have two of these goals presented to us without any cost to the state.

6. Bowling on the Green.....\$300.00

Mr. Irving Hill of Lawrence has a place in his own yard for bowling on the green. At Iowa State College, this sport was the greatest single attraction to bring the groups together for recreational hours. The installation of this game would do more than any other single project here to stimulate interest and wholesome recreation. The nature of this sport combines both recreational and social aspects for both men and women. Great numbers would come, not only to play, but to witness others playing.
