

Note:

The towel room is open from 8:15 in the morning, six days a week, to 11:30 at night during the winter months. This is to accommodate not only the regular physical education classes, but the intramural games, such as basketball, volley ball, etc., that necessarily have to be played late at night. During the day, at hours when the gym classes are particularly large (8:30, 9:30, 11:30, 1:30 and 4:30) it is necessary to have two persons in the towel room to take care of these students.

- - -

The maintenance and supervision of the golf course will cost more during the spring months than during the winter. For that reason the irregular payroll will be heavy.
