Office of  
The Chancellor

June 1, 1937

TO HEADS OF ALL DEPARTMENTS:

Enclosed you will find the budget for your department, as recently approved by the Board of Regents.

In order that the records may be complete and accurate, you are requested to file in the Chancellor's Office by return mail appointment blanks for each person on the regular payroll in your department who has been or will be

- (a) Newly appointed
- (b) Promoted in rank
- (c) Re-employed for service in office or laboratory, or on the faculty with rank of instructor, assistant instructor, or assistant.

For members of departments of instruction, duplicate of each blank should be filed with the dean of the school to which the department is assigned. Appointment blanks may be obtained at the Chancellor's Office.

In view of the late date, prompt and complete cooperation on the part of the departments will be of the greatest assistance.

Cordially yours,

E. H. LINDLEY,  
Chancellor.

Maintenance			1,900	
Special Maintenance			450	

\* Additional from Athletic Association, as follows:

F. C. Allen	2300
H. W. Hargiss	1920
H. G. Allphin	80
Jay Plumley	300
Ralph Conger	1100

Concrete tennis courts

Concrete handball courts

Permanent back stop

Sanding the beach and improving Potter's Lake  
for swimming, both spring and fall.

Improved and more often marking of tennis courts,  
better back stops, replacement of thin  
steel pipes. It costs \$1.00 per day to  
sprinkle, mark, and roll tennis courts,  
per court.

Grading and leveling of entire intramural field,  
whether done by unit or done in toto.

UNIVERSITY OF KANSAS  
Lawrence

Department of Physical Education

March 16, 1938

TO THE BUDGET COMMITTEE:

May I present for your consideration a matter very vital to the physical welfare and health of our students at the university of Kansas.

The tract of land south of Mt. Oread, known as the Intramural Field, was purchased by the Athletic Association, a non-corporate body, in 1923 for a consideration of \$12,000. This land was held in escrow by the K. U. Endowment Association and later deeded back to the Athletic Association (University of Kansas Physical Education Corporation), a corporation now in existence.

Last year when the University of Kansas Physical Education Corporation got into financial straits, the Board of Regents agreed to purchase the land for the sum of \$12,000, the amount that was paid by the Athletic Association in cash in 1923. The deed is now in the name of the State.

The Athletic Association has never used this land for a competitive purpose. Rather, it was purchased for the intramurals in the beginning, and has always been used by student organizations as such. The University has, however, from time to time, cut large tracts of sod from this acreage to be used in sodding various portions of the campus proper. This refers to the time when there was grading and filling around the Administration Building and on the slopes around new buildings, such as Snow Hall.

The thought that I am trying to project is that this tract of land has not been treated by the University as a University possession with the exception of the time when something could be obtained from the tract. Inasmuch as intramurals are a part of the Department of Physical Education and the physical activities of the students in play are sponsored by the department, it seems reasonable and thinkable that it would be in keeping with logical practice to have the University at least remove the distinct hazard that this ungraded field presents to the life and limb of the students playing on it.

It seems to me that WSEP labor, under the direction of Mr. Bayles, has done much constructive work on the campus. Since this tract is now directly a part of the University it would be a very much desired thing if we could have the field graded so as to make it safe for the students to play there. The slope of the field from the north to the south is so acute that there is apt to be extreme injury to the participants of a game where physical contact is indulged in. The intramural football fields run from the north to the south. I was present at some of the games last fall, and I am amazed that there are not more serious injuries than there are.

The weight of a 170 pound man is multiplied many times in the momentum he gains in coming down hill, and it is easy by a stretch of the imagination to think of a 170 pound man striking a man of 140 pounds under these conditions.

No money has ever been spent on this field. The topography is as it was when the land was purchased in 1923.

The four women's tennis courts south of the gymnasium and the women's hockey field, which was graded about ten years ago at a great expense - a near financial calamity - are the only outdoor sports on Mt. Oread where the students can have any physical recreation. I daresay there is not another campus in America that presents the same situation.

Every one of the tennis courts north of the hill were graded and paid for by the Athletic Association. The Department of Physical Education has never spent any money for their building. The lots on Illinois and 11th Street were purchased by the writer for the Athletic Association (University of Kansas Physical Education Corporation) primarily to prevent encroachments by outside parties upon University domain, and secondly to provide tennis courts and play facilities for the student body of the University. It was much cheaper to buy a city lot and build a tennis court off the campus of the University than it was to drain, grade and build a tennis court on the rugged campus of Mt. Oread. Four city lots were purchased under this line of reasoning, and they are now used by the students as tennis courts. The Department of Physical Education has partially maintained them, and this year is forced to maintain them and keep them in shape, as the Athletic Association has withdrawn financial support.

Now, referring again to the intramural field. The entire surface water drainage from the south slope of Mt. Oread is emptied on to the intramural field by a sewer constructed by the Department of Buildings and Grounds and the county. This crosses the road between the south boundary of the old University campus to the present acquired land which is temporarily used by the intramurals. There is an uneven, jagged ditch which has been partially filled in with rock by the Department of Buildings and Grounds to prevent the land washing away on this newly acquired field. By putting a storm sewer there much valuable land and playing space could be reclaimed for the students.

I would appreciate your thoughtful consideration toward developing durable and permanent playing space for the University students who vitally need this facility for their bodily vigor and their recreation.

Very sincerely yours,

Forrest C. Allen  
Director of Physical Education.

UNIVERSITY OF KANSAS  
Lawrence

Department of Physical Education

March 16, 1938.

Dean E. B. Stouffer, Chairman, Budget Committee  
Dean R. A. Schwogler  
Dean P. B. Lawson  
Dean F. T. Stockton  
Mr. Raymond Nichols, Secretary.

Gentlemen:

May I present for your consideration a matter very vital to the physical welfare and health of our students at the University of Kansas.

The tract of land south of Mount Oread, known as the Intramural Field, was purchased by the Athletic Association, a non-corporate body, in 1923 for a consideration of \$12,000. This land was held in escrow by the K. U. Endowment Association and later deeded back to the Athletic Association (University of Kansas Physical Education Corporation), a corporation now in existence.

Last year when the University of Kansas Physical Education Corporation got into financial straits, the Board of Regents agreed to purchase the land for the sum of \$12,000, the amount that was paid by the Athletic Association in cash in 1923. The deed is now in the name of the State.

The Athletic Association has never used this land for a competitive purpose. Rather, it was purchased for the intramurals in the beginning, and has always been used by student organizations as such. The University has, however, from time to time, cut large tracts of sod from this acreage to be used in sodding various portions of the campus proper. This refers to the time when there was grading and filling around the Administration Building and on the slopes around new buildings, such as Snow Hall.

The thought that I am trying to project is that this tract of land has not been treated by the University as a University possession with the exception of the time when something could be obtained from the tract. Inasmuch as intramurals are a part of the Department of Physical Education and the physical activities of the students in play are sponsored by the department, it seems reasonable and thinkable that it would be in keeping with logical practice to have the University at least remove the distinct hazard that this ungraded field presents to the life and limb of the students playing on it.

It seems to me that CSEP labor, under the direction of Mr. Bayles, has done much constructive work on the campus. Since this tract is now directly a part of the University it would be a very much desired thing if we could have the field graded so as to make it safe for the students to play there. The slope of the field from the north to the south is so acute that there is apt to be extreme injury to the participants of a game where physical contact is indulged in. The intramural football fields run from the north to the south. I was present at some of the games last fall, and I am amazed that there are not more serious injuries than there are.

The weight of a 170 pound man is multiplied many times in the momentum he gains in coming down hill, and it is easy by a stretch of the imagination to think of a 170 pound man striking a man of 140 pounds under these conditions.

No money has ever been spent on this field. The topography is as it was when the land was purchased in 1923.

The four women's tennis courts south of the gymnasium and the women's hockey field, which was graded about ten years ago at a great expense - a near financial calamity - are the only outdoor sports on Mt. Oread where the students can have any physical recreation. I daresay there is not another campus in America that presents the same situation.

Every one of the tennis courts north of the hill were graded and paid for by the Athletic Association. The Department of Physical Education has never spent any money for their building.
