

June 8, 1938

Dear Sirs:

In answer to your ad in last night's and tonight's paper, I would like to apply for the job of teaching archery.

You said a young woman. I am 16 years old and have had 3 years of archery experience. I was chosen with a group of other girls to instruct the younger pupils in high school in archery and tennis. However, most of my work was on archery. I believe I know nearly everything there is to know about the sport. I have won awards in my high school for good shooting at a distance of 30 yards with a 22 lb. bow.
