

point-smiths. ~~he has not been restricted to less than~~ up to the trojan battle he hadn't been restricted to less than 24 points in a single outing. and he wrecked smu dec, 14 in dallas with a new school individual high of 42. more ominous is the fact that his shooting percentage from the field is .52.

~~it is a fact~~ although he'll face sturdier opposition in tournament play, cumulus clyde always has found the municipal auditorium planks a friendly range. he never has scored less than 20 in any single game and last year established a single meet mark of 84.

the jayhawks can, and do ~~not~~ murder, ~~like~~ sagging or zone defense with nifty outside shooting from ~~his~~ three other veterans bill lienhard, bill heugland and bob kenney. they will face the tourney test ~~minus~~ the services of regular guard charlie hoag, who is not yet recovered from a football groin injury.

the jayhawks have somewhat more depth than last season, but they ~~will~~ must call on more aggressiveness and fire ~~if they vary it~~ ^{displayed} ~~in the tournament~~ ^{than they have} ~~displayed~~ in most of their wins to date, if they are to reach the tournament king row, however.

the defending champion wildcats, although losing four top-flight regulars, appear as formidable as ever with another buck-shot attack which goes two teams deep. through their first seven games, ~~like~~ jack gardner's purple pillagers boasted six men within a scoring radius of 48 and 79 points. junior dick knestman tops the brigade with 79, but every one of the others, bob rousey, jim iverson, jack carby, jesse prisock and gene wilson, can ruin any foe on a given night. the cats always have three or four men in double figures and gardner ~~doesn't~~ ~~hesitate~~ hesitate to alternate at least ten hands against any foe.
