

caroms.

however, the tigers, noted for sturdy tenacious defense since stalcup assumed the reins, never have succeeded in slipping the manacle on clyde lovellette, ku's giangantic all-american center.

in four starts against mu, cloudburts clyde has put together point explosions of 29, 39, 18, and 24. this is 110 or an averge of ~~27.7~~ 27.5 per outing.

held to five points through the first half by kansas state, lovelette broke loose for ~~25~~ 20 in the final half and five in the overtime to take over his accustomed spot atop the tournament ~~scoring~~ individual scoring race. combined with his 23 point total against colorado in the opener, his two-game aggregate now is 50.

~~stalcup must~~ with his tallest regular measuring 6-4, stalcup virtually must choose from three choices. he can employ a 6-8 fre shman, bob reiter, as an individual picket. he can alternate ~~two~~ the same 6-4 tandem that limited ou's sherm norton to 13 points, gene landolt and art helms. or he can throw out a zone.

one almost certain bet is that the missouri bossman <sup>fit</sup> won't put ~~put~~ stauffer, his top scoring threat, into the lovellette barricade.

onxx ku and mu are billed at 9:45 p.m., following the 8 p.m. tipoff between the sooners and wildcats.
