

large town and we do lots of traveling when we open our season. I read about your book in a paper in Los Angeles, my home. When transferred here I was unable to gather any more information on your book. I wrote to William Mori who has just received an answer from you and relayed it to me. Willy lives in L.A. and is a wonderful player and keen sportsman.

I'm glad to know that I can get your book direct from you and better still to get your autograph which will make the book seem twice as valuable as I have always regarded ^{you} ~~to~~ as one of basketball's greatest men.

I am enclosing a money order for \$4.00 for your book "Better Basketball". Willy said that you sent him some catalog on the Univ. of Kansas and a bulletin of Physical Education Dept. If you have anymore of these catalogs please send them along with the book.

Thanking you

I remain yours.
