Dear Doctor:-

Your letter of the 20th at hand and noted.  
Enclosed find my check for 4.00 in payment of one  
autographed "Better Basket Ball"

Also I am interested in what I may learn as  
to the care and treatment of Athletic injuries. I  
will never be a coach, but my interest in the game and  
the boys that play it will never cease. I do some  
training and care for the squad and I would like to  
have the latest on this phase of the work. If you  
wish to recommend anything that would supplement your  
"Better Basketball" on the care of this type of injury  
please inform me.

Wishing you continued success in this your  
notable work I remain.

Sincerely,
