

November 27, 1937.

Miss Veta Lear,
College Office.

My dear Miss Lear:

I want to thank you very much for the list of varsity basketball players that you have checked for eligibility. I am sending also a list of freshmen basketball players, and I would appreciate your checking their grades.

My purpose in asking for the freshmen is to write a letter to each faculty member who has students in class who are doing either unsatisfactory or failing work. The varsity and freshmen play a game Friday night in the auditorium. I do not propose to play any varsity or freshman men in this game who have failing work at the present time, even though they are eligible to play in this game.

So far as the varsity players are concerned, they would be eligible if they have had 27 hours the two preceding semesters, even though some of their work now might be unsatisfactory, but I am anxious to play the game with the faculty members, showing them that I will not use any players unless all their work is at least satisfactory.

I will appreciate your early cooperation in getting this list of freshmen to me so that I may announce the starting and eligible line-up.

With appreciation, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
