Dr. Raymond A. Schwegler
Dean, School of Education
University of Kansas
Lawrence, Kansas

Dear Dean Schwegler:

Enclosed you will find two mimeographed pages of summarized data regarding my academic and experiential record.

At the present time I am enjoying my work in the training of teachers in the physical education department of the School of Education here. However the organization of the department does not allow for that development through the taking on of major responsibility that is predicated if I am to make best use of my background of training and experience.

I completed the work for my doctorate in February 1940 and am therefore freer to serve in fields more remote from the University of Michigan campus.

Although I have no knowledge of any immediate opening in your department I am sending this information hoping that should a vacancy occur I might be considered. I am married, have two sons and am not subject to the Selective Service call. If a challenging position was involved I would be glad to assume charge even during the absence of a draftee.

When necessary a complete record of occupational information including references can be secured from our University Bureau of Appointments and Occupational Information.

Yours very truly,

Harold W. Copp
