

regular semester. That would mean 9 hours per week for 1 hour credit + at least 4 hours per week for $\frac{1}{2}$ hour's credit.

A suggestion: might it not be well to offer a number of activities for no credit + just let the kids have a good time with them? We'd be willing to allow girls to take 6 hours of work for credit + this no credit gym on top of the 6 hours if you spend it.
