Dr. F. C. Allen
801 Louisiana
Lawrence, Kansas

Dear Dr. Allen:

Music Week observance in Lawrence, for various reasons, will come considerably earlier this year than in previous years.

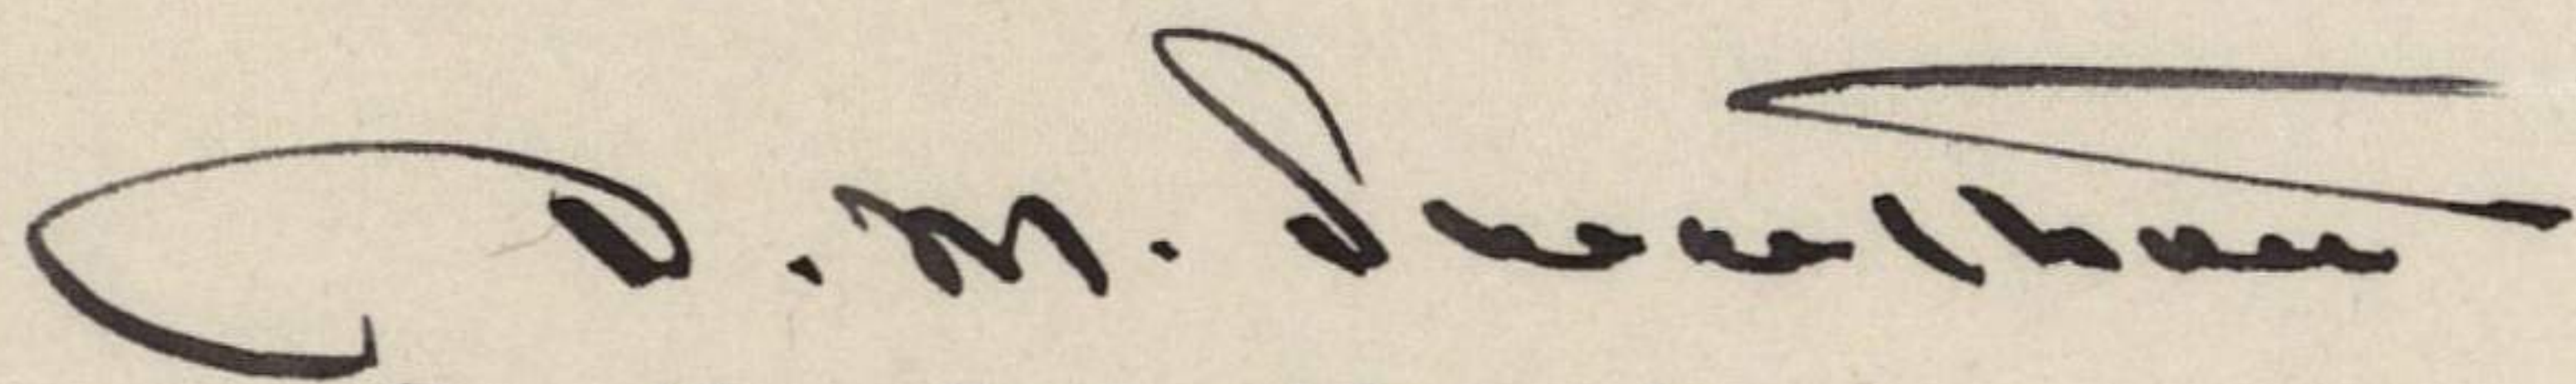

Starting Sunday, April 16, this community will take recognition in a specific manner of the important place music is playing in the national picture today.

Under the severe stress and strain of an all-out war time program, music right now is making a notable contribution to morale in industry, in civilian life, and in many ways among the armed forces themselves.

In previous years the Rotary Club has participated in Music Week by inclusion of special music in its program for the week. We are asking such an observance be planned again this year. If our office can be of any assistance, please feel free to call upon us.

With kind regards.

Cordially yours,

D. M. Swarthout
Dean
J
