NEWNESS

INTEREST

BEAUTY

You've seen the world,  
The beauty and the wonder and the power,  
The shape of things, their colors, lights, and shades,  
Changes, surprises. —Browning.

In the field of geography for the first time in years, Newness in substance as well as in dress is an accomplished fact, for the series is new in every sense.

Interest as well as Newness is a distinctive feature of Our World Today. Every page shows the skill of two teachers who *know* from experience how to make geography interesting to children.

And the series is attractive beyond comparison. Sight-saving typography, skillful selection and arrangement of pictures, superior maps set new standards in line with latest authority.
