at the present time this practice is followed, but it does not exist in

Kansas. *But the* ~~The~~ State of Kansas is also a happy hunting ground for the

athletic head-hunters from the Big Ten, the Southwest and Pacific Coast

Conferences. Coaches and athletic officials, or their emissaries, of *some of schools*

these conferences annually pay profitable visits to Kansas and make away

of each of with much of our choice high school athletic material. Corporations will

not be financially able to make good-will donations to these athletic slush

funds nor will fraternities and sororities be willing to feed an extra

athletic ~~mouth~~ *mouth* for the glory of good old Siwash! Father and Mother will not

be able to foot the bills. The vital business of whipping Hitler will be

paramount to our over-indulgence of glorified publicity and financial display

neither of which are worthy lessons for youth to learn. Participation in

athletics for the masses will be emphasized. ~~and~~ Our gate receipts will fall

of necessity off and there will be a consequent diminution in the numbers of our high-

college *now* priced coaching staffs *holding jobs.*

#1

gambling Many times more than double the money is gambled on football games

in the United States *this country.* each year than is bet on horse races in ~~the United States.~~ The ~~big time~~ *professional*

~~rackateers~~ "take" *afternoon* gamblers ~~out~~ on football parlays which they put out each Saturday, is nearly

40% — leaving the easily hood-winked public the suckers share. While this

filthy situation is not the fault of the colleges, neverless, the ~~slimy~~ hand of the

rackateer has not edified these intercollegiate games which were once academic.

and good will #2 A high school or college teacher desires security, the same as does the

manual laborer. A teacher of young men desires security - an athletic coach

under the present plan desires security, but there can be no security with subsidized football and

basketball because the followers of subsidized athletics demand a sure-fire

winner every time. So-called athletic boosters pay their subsidized money

into a secret fund to insure this. Every coach in the same conference cannot

win the championship for his team. Winning a championship is very uncertain.

And when successive losses accumulate then the emotional frenzy of the disap-
