Lawrence, Kansas.

Dear "Phog":

I have acknowledgment from the factory on your double faced basket ball board, and they tell me that our order was received just two days late since they had sold the last one on hand at that time.

It will be necessary to set to work at once to build up one, although they say that it can be completed some time next week.

They also tell us that they are going to make it a little larger, about 54 inches long and 48 inches high, with a thirty inch dial, and there'll be no difference in price.

I just wanted you to know about this and tell you that the factory would do everything they possibly could to rush this out to you.

Very truly,

LOWE & CAMPBELL
