

Basketball Equipment

AUTOMATIC BASKET BALL

SCORE BOARD

The year's outstanding basket ball score board value! The motor is accurately tested and instantly reversible for corrections. Its large translucent dial and scores are easily visible at a distance of 250 feet. The automatic horn can be sounded at will and the clock can be set almost instantly for short quarters and over-time periods. Instantly reversible 8-inch scoring numerals, indirectly lighted and visible from the sharpest angles, are a special feature not available on most boards. An 8, 10 or 20 minute, unbreakable translucent dial is optional. Name of school instead of "Home" is also optional.

Special Features
