

May 17, 1944.

Mr. Chas. A. McMillan,  
Superintendent of Schools,  
Slater, Missouri.

Dear Charles:

Thank you for the copy of your graduation program. When I get into Slater I will call the school or your residence.

I have a letter from Dr. Wayne Konrad, osteopathic physician, asking that I take dinner with him Friday night. He states in his letter that the train service has been suspended due to the Missouri River flood and it is doubtful whether the railway will be in operation, so I am planning to drive.

I met Dr. Konrad while he was a guest of some osteopaths here in Lawrence - the Drs. Barney (husband and wife). Since that time he has insisted that I call upon him.

I have just looked at your stationery and notice that Dr. S. Mead is the president of your board. For that reason I think that I will regret so that I will avoid any embarrassment to you or my other good friends. I will call upon you as soon as I arrive in Slater which will be before dinner time, I hope. Do not make any plans for me. I will get a bite at the restaurant, and relax.

It will be a pleasure to see you and your family again.

Sincerely yours,

Director of Physical Education,  
Varsity Basketball Coach.
