Dear Dr. Allen,

The other day I was talking to Mr. C.A. Millan, the Superintendent of schools, and he told me that you are to be the speaker at the graduation exercises here in Slater.

I would like to take this opportunity to extend to you a dinner invitation from the Konrad family, and to make our home your unofficial headquarters while in Slater.

My wife and I recently had a letter from Doctors Esther & Mason Barney, and they tell us that they are both well and that the practice in Vermont is coming along fine.

We were certainly glad of the opportunity of having a few minutes to talk to you after your Missouri game in Columbia back in January.

Let us know about your plans concerning your engagement here in Slater

Resp.
