

UNIVERSITY OF KANSAS
LAWRENCE

DEPARTMENT OF
INTERCOLLEGIATE ATHLETICS

January 9th, 1939.

Dr. F. C. Allen
105 Robinson
Campus.

Dear Dr. Allen:

In compliance with your request in your letter of December 14th, 1938, I am glad to send to you under separate cover my magazine and newspaper articles.

For your information I wish to state:

That the articles on "Swimming Pools in Europe" were accepted by four different periodicals; The Red Cross Courier; Journal of Physical Education; The Beach and Pool; The Douglas County Republican. The data for these articles were observed, studied, translated and compiled for a final examination paper in a Physical Education European Travel Course sponsored by the University of Michigan. The records of the University of Michigan show that I earned in this graduate course six hours credit with a grade of "A", which I will apply toward a doctorate in Physical Education.

That in their new book, "The Organization and Administration of Physical Education", Drs. Voltmer and Esslinger quoted my article, which appeared in the December, 1936 Physical Education Research Quarterly.

That this latter mentioned article of mine was also used by Miss Gertrude Baker of the University of Minnesota in a paper, "Techniques of Supervision for Teachers in Training" presented at the Central District of Physical Education Association in Minneapolis in March, 1938.

That my article entitled, "Annual Swim Weeks", which was released in the 1937 Swimming Pool Data and Reference Annual, interested pool managers throughout the United States. Requests came to me for this material from pool managers from fifteen states and one foreign country.

Dr. Allen, I am neither an intellectual paragon nor a mental monstrosity but I wish to call your attention to the space given my articles in various periodicals along with
