

UNITED STATES ARMY

Camp Robinson

June 19, 1945

Dear Sir;

I guess you never expected a letter from me. I'm in the infantry. Thanks to the sports I played which it has helped me out on my physical conditioning drills.

Here this morning after breakfast we ran a mile and through partly obstacle courses. I noticed boys my age who have never played in any sports they are getting hit hard.

I'm going to like this training, because I know it will do me good so I'm doing my best all the way.

This next seventeen will be rough, but the boys played sports will not notice it very much. Our Company Commander is a Captain who has fought Gaps and he was left for dead before. So he's going to get us in shape. He's out there leading us through everything. All the boys like him.
