Dear Dr. Allen,

I am deeply sensible of the kindness received in your letter of October 3, the contents, and the two enclosures.

Dr. Allen, the way in which you have handled through the years your problems and achievements has led me to believe that you are a thaumaturgist. With this conviction I thought if you recommended Herbert, recognition for his work would come.

In the "Understanding Campaign," that we are now waging, I find that we have worked through the doors of both our wonderful
