Chancellor E.H. Lindley,
University of Kansas.

Dear Dr. Lindley:

I am enclosing for your consideration copies of two letters which I have just received from Herbert Allphin in regard to salary increase for next year.

Salaries of the staff in the Physical Education Department are below the scale of prices paid in other institutions of our rank and I just wanted you to know that some of these men think they are entitled to a raise.

The women of the department have advised me that they can not stay much longer at these salaries.

Very cordially yours,

Director.
