Dr. F. C. Allen  
Kansas University  
Lawrence, Kansas

Dear "Phog":

For some time I have been wanting to write. First I want to thank you for the sacro-iliac adjustment last fall at the coaching school. I have had no trouble since and am very happy about it all.

I was not in town to see the basket ball game Feb. 16. However, I am very sorry you encountered such an occasion following the game. As an alumni of K. S., citizen of Manhattan, and one interested in the fine athletic programs we are characterized by in America today I am very much disturbed by such action of people, and I know from talking to many of our fine business men they all feel the same way.

Congratulations again on another fine team! Sorry that our basket ball banquet conflicts with N. C. A. A. as we would like to have you with us.

Sincerely yours,

Lud Fiser
