Dear Fellow Worker:

Have you missed your copies of the JOURNAL OF HEALTH AND PHYSICAL EDUCATION or the RESEARCH QUARTERLY? Have you been wondering what is going on in the field of health, physical education, and recreation? Do you want to know what programs are being planned for the post-war period? Are you interested in reports of significant activities?

Do you need help with your program, facilities, public relations, or guidance of students? Are you interested in reading about the latest research studies in the fields of testing, program, physiology of activity, history, methods, or trends? Have you heard about the new books? Do you know what the members of our profession are thinking and saying? Do you feel the need of professional stimulation?

Are you interested in making health, physical education, and recreation a stronger, more worthwhile profession for everyone?

If the answer to any of these questions is "Yes," you cannot afford to miss this opportunity to renew your membership. The American Association for Health, Physical Education, and Recreation, as a Department of the National Education Association, is taking an increasingly important position of leadership in the development of programs of health, physical education, and recreation. Also, the Association is reaching forward to increase cooperation with many related community, state, and national associations and agencies.

Your membership expired a long time ago. We need you and want you to have a part in this organized program. Join your national Association today! An application blank is enclosed for your convenience. Your membership can start in October, January, or April and extend for one full year. We urge you to begin as of October. Fees are given on the reverse side of the red application blank.

Sincerely yours,

Ben W. Miller

Ben W. Miller
Executive Secretary

P. S. Please disregard this letter if you have already responded.
