Dear Mary Virginia:

I want to take this means for thanking you for helping us in the archery range.

Since our funds are very limited and the numbers on the range are few together with the near closing of school, I believe that we could now get along with one helper. We'll use Evelyn Herriman since she is a student and needs the work.

I'm sure you will understand the preference for student labor.

Again thanking you and with appreciation for your kind cooperation, I am,

Sincerely yours,

Director of Physical Education and
Recreation-Varsity Basketball and
Baseball Coach.
