

UNIVERSITY CHRISTIAN MISSION
UNIVERSITY OF KANSAS
OCT. 23-28, 1938

FINAL REPORT

NUMBER OF MEETINGS:

About 150 meetings were held with Mission leaders during University Christian Mission Week. There was an average of 10 leaders with us through the week.

A brief summary of the distribution of meetings:

50 evening dinner discussions
30 class lectures
5 noon luncheon forums
3 faculty luncheons
5 convocations
5 non-university engagements
6 evening meetings
28 seminar periods
6 breakfast conferences
3 Ministerial Meetings
7 special meetings

Many interviews were held with the leaders, how many, we do not know because each leader scheduled most of his interviews himself. But for several of the team, there were more requests for interviews than they had time to give.

ATTENDANCE:

The attendance at these meetings was remarkably good. As no actual count of people was made at any time, attendance figures can only be an estimate. Beyond saying that the response of students and faculty and town people was splendid, not much need be said. By far the greatest number of our meetings were held with groups where the membership was definite. Only at evening meetings, seminars, some special meetings, noon luncheons, and breakfast conferences was there much chance for variable attendance.
