

October 31, 1938.

Dean Paul B. Lawson,
College of Liberal Arts and Sciences,
University of Kansas.

Dear Dean Lawson:

Doubtless you were the motivating influence that prompted the University Christian Mission, and I want to add my congratulations for the fine work that was accomplished. Such outstanding characters as E. Stanley Jones and Dr. T. Z. Koo made a very definite contribution.

I congratulate you on the foresight and leadership in organizing such a formidable coterie for positive good. While one week will not settle all of the fundamental questions in the lives of many people on the campus, yet these experiences will cause them to ask questions and to ponder, and after all, if people do that they are more apt to work out answers for their social and religious contacts.

Permit me to commend you for this wonderful contribution.

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
