

August 7, 1946

Mr. Bob Ulrich
Wichita, Kansas

Dear Bob:

I have looked over your transcript and find that you have 84 hours credit in various subjects. However, many of your subjects could not be used in the physical education curriculum. You apparently have a minor in mathematics.

If you want to major in physical education, you would need 75 hours work, or about 5 semesters in addition to the work you now have. You will need 36 hours in physical education, 21 hours in education, plus general biology, zoology, physiology, human anatomy, fundamentals of speech and two more hours of English composition and literature, a total of 18 hours in addition to your education and physical education. Should you decide to embark on a program of physical education, you should transfer to the School of Education.

I am enclosing a circular which will give you some idea of the physical education program. It is not quite up to date but is approximately so.

Very sincerely yours,

Henry A. Shenk
Chairman of the
Department of Physical Education
