

UNITED STATES NAVY

I wrote Johnny a letter complimenting him on his honesty and thanking him for returning it to you.

We are having our first months finals at the present time. We have had two of the three we must take. The school here is very good and studying is an essential. The good old college days of loafing are definitely out and one really has to hit the ball. I am keeping my head above water so far.

Thank you again and will be back in August to see you for a chat about old times.

A friend
