

January 16, 1946

Mr. J. E. "Cap" Turner  
1309 Walnut Street  
Kansas City 6, Missouri

Dear "Cap":

I dropped in to see you the other day and you were, as usual, that hard working, busy man, absent from your store but in quest of more and more business. I will remember your admonition to scrap up any old used athletic equipment, such as balls of any kind, and send them to you.

I am wondering if you could use any more of those supporters. There is a surplus stock here. If you could use them, let me know. We have large, medium and small sizes that were bought by the A.S.T.P., Army Student Training Program, which is now out. We have them on our hands and would like to get rid of them, if you can use any of them.

Sincerely,

Director of Physical Education,  
Varsity Basketball Coach.
