

February 11, 1946

Mr. Charles Woodard Truby
Anthony, Kansas

Dear Charles:

Coach Wayne "Bill" Replogle has just stopped in the office and told me about the fine visit that he had with you and your dad. I recall the fine visit I had at Anthony with you and the rest of the good people of your community. I would have liked very much to have been with Coach Replogle and to renew the pleasant acquaintances that I made there.

Coach Replogle tells me that you are continuing your splendid athletic and academic record which you started at Anthony. We would be delighted to have you consider the University of Kansas. We think we have a fine university and an exceptional engineering school.

I am hoping that you can come up and visit the university in the not too distant future. We are reestablishing our Kansas Relays this year and even though you may not compete in track, which I suspect you do, it would be a fine opportunity to visit the university and get better acquainted. The morning of the Relays we invite many of the high school seniors in to check out a basketball suit and swap goals with our varsity players. Our varsity boys play along with the high school boys and generally a good time is had. In other words, on Saturday morning prior to the Relays the boys have a good work out, a good shower bath, and a lot of good fellowship. This puts them in shape for a good meal at noon and the Relays in the afternoon. You will hear more about this a little later, but count on coming. The date is

Please remember me most kindly to your good dad and tell him that sometime in the not too distant future I hope to drop in on him and say "hello". I have no schedule at the present time for a visit in your vicinity but I am hoping. With all good wishes for your continued success, I am

Sincerely yours,

Director of Physical Education,
Varsity Basketball Coach.
