Dear "Doc":

Really thrilled me to find that I was on the "Jayhawk Rebound" list when I received it the other day. Reading it didn't help my studies any but after I once started I could not stop till I had read it all.

The title is Ensign now Doc which means a little more work and worry. I love it.

I am at the Officers Training School here now learning how to take care of myself. Its not much fun crawling around in the snow but Im much luckier than many boys I know.
