MEMBER \$350,000 CORPS 1943-44

Dear Phog:-

The return of Spring and golfing weather reminds me definitely of you and the many happy Sunday afternoons we spent together on the links. I looked for you at the Basketball Tournament but was disappointed in not seeing you.

How are you getting along with so many civic duties as well as coaching? Do you have baseball again this year? Is your golf game still improving as it was last fall?

I had a good year in 1943, and it continued in 1944 in spite of my only working part time. I found that my extreme let-downs on Mondays were due to over-exertion on Sat.-Sun. - headaches + lassitude + some heart-pounding due to low blood-pressure. I have had all the exams, ex-rays, cardiograms, basic metabolisms etc, but the only thing they could recommend was a hemoridectomy.

By using a Thornton-minor salve I have improved my general tone & feel much better. When ever I eat something that empties me, however, I am back to about 95 over 60 blood pressure. I guess I just getting old.
