

I hope you will pardon my enthusiasm if it seems over-done -- but I have been sold on Otto for a long time.

I had my folks send me clippings of all the games from the Times.

Included among them was the story of how you had so justly been picked as the No. 1 basketball coach of all time. It was no surprise to me, I had been convinced of it since I started listening to broadcasts of K. U. games in the days of Tus Acherman and Al Peterson.

Then, too, I was interested to see the article in "Sporting News" with pictures of you, Evans and Otto.

No, Dr. Allen, I'm not a lieutenant, just a buck sergeant. I have no desire to be a "90-day wonder". I'd rather be doing my part as one of the crowd although I think I could qualify for Officers' training. The idea of trying to lead a group of men after 90 days training when they would know a lot more about their jobs than I just doesn't appeal to me.

Captain Raymond Foster often inquires about you and your team. If you should care to reach him, his address is.
